

## JOB DESCRIPTION

**JOB TITLE:** Health Educator  
**DEPARTMENT:** Programs  
**REPORTS TO:** Director of Programs and Advocacy  
**FLSA STATUS:** Full time, non-exempt

### General Statement of Duties

BREATHE LA is a nonprofit 501©3 organization dedicated to promoting lung health and clean air in Los Angeles County. BREATHE LA addresses these issues through education, advocacy, research and technology with a focus on COPD, environmental education, lung disease, tobacco and access to health services. Programs are multi-cultural, multi-disciplined and tailored to individuals and communities, age ranges and cultural backgrounds.

BREATHE LA seeks to fill the position of a full time Health Educator:

### Essential Duties and Responsibilities:

- Demonstrates a well-informed understanding of the programs and services that BREATHE California of Los Angeles County (BREATHE LA) provides to the community
- Adheres to BREATHE LA's policies and procedures consistent with the mission, vision and value statements
- Identify potential community partners
- Develop and build effective working relationships with community-based groups, medical providers, and faith-based organizations
- Conduct lung health education workshops and health risk assessments
- Develop and disseminate relevant health communication material pertaining to lung health and environmental health
- Administer pre/post-tests and data entry of health outcomes of program participants
- Facilitate meetings with community partners to organize resources
- Deliver presentations at community events and local health fairs
- Utilize community partnerships to aid in recruitment of participants and fulfillment of program objectives

**Qualifications:** To perform this job successfully, an individual must be able to perform each essential duty satisfactorily.

- At least two years of work experience as a health educator, community health worker, or related experience required
- Certified Health Educator (CHES) required
- Associate degree in Public Health, AA degree in Respiratory education, or related field strongly preferred
- Bilingual (English/Spanish) strongly preferred
- Strong communication and organizational skills
- Data entry experience using Excel
- Experience preparing and delivering health education presentations using PowerPoint

- Community organizing and related experience working with hard-to-reach populations

This job description reflects management's assignment of essential functions. It does not prescribe or restrict responsibilities that may be assigned.
